

Please do not implement the proposal that would lessen Indiana's Telephone Privacy law protections.

Because of Indiana's "No Call" law we now are eating supper, having family time, and doing homework without the interruption of unwanted phone calls. We were receiving calls almost every night from "sales people" especially on Sundays. Some of the callers would not take no for an answer and hanging up did not always help. Some would continue to call.

With Indiana's "No Call" law we can now enjoy supper and family time and do homework without the interruption of unwanted calls.
